Elite English Learners' Club

**Report on International Webinar on Building a Peaceful Society During
and Beyond Covid: Engineers in Action**

The **Elite English Learners' Club** of the Department of English, Ramco Institute of Technology, organized an **International Webinar on "Building a Peaceful Society During and Beyond Covid: Engineers in Action"** on **29 June 2020** with the objective of promoting social responsibility, global awareness, and effective communication among students during the challenging period of the COVID-19 pandemic.

The webinar witnessed the participation of **124 students** from all years. The resource persons highlighted the significant role of engineers in addressing global challenges, promoting sustainable development, and contributing towards building a peaceful and resilient society through innovation and collaboration.

The session encouraged students to understand the importance of leadership, ethical values, teamwork, and communication in overcoming social and technological challenges. Participants actively interacted with the speakers through a question-and-answer session, making the webinar informative and engaging.

The faculty members of the Department of English efficiently coordinated the programme and ensured the smooth conduct of the webinar. The event concluded successfully, inspiring students to contribute positively towards society while enhancing their communication and professional skills.
